

FASTDS-VS
BUILT ON FASTCORE

FAST ENTERPRISES

DRIVER & VEHICLE
SERVICES SOFTWARE

DESTINATION: **THE FUTURE**

Half of all U.S. states have chosen FastDS-VS to modernize their DMVs. Built on the flexible FastCore platform, our integrated tools provide 360° management of the entire driver and vehicle lifecycle—and whatever's next on your journey.

Mobile Driver Licenses and Identity Verification

Colorado, Georgia, Maryland, and New Mexico have leveraged our rapid mDL implementation to expand customer offerings and support secure, efficient identity verification.

Digital Titling and Registration

By making title transfer and/or lien documents available online, Michigan, Minnesota, and Utah are the first of many to expedite service and make strides in eliminating paperwork.

FAST Station Camera and Photo Capture

Montana and other states use our sleek, AI-driven cameras to snap the right photo—the first time. FAST photo capture uses AI for virtual backdrop, facial detection, and facial recognition.

FastQ and Kiosks

Agencies optimize scheduling, guest flow, and service delivery with our integrated mobile-based solution, virtual appointment capabilities, and self-service kiosks.

Modern Interfaces

The FAST Gateway connects DMVs to essential interfaces, including American Association of Motor Vehicle Administrators (AAMVA) services, boosting real-time data-sharing capabilities.

SERVE EVERYONE, **EVERYWHERE**

Your services are essential, but socioeconomic, mobility, and technological factors may create barriers for some customers. Our secure online portal exceeds accessibility standards, enhances the customer experience, prevents fraud, and relieves burden on your workforce, via:

24/7 online self-service portal

AI-driven chatbot

Multilingual support

Virtual appointments

Centralized Contact Center

Compatibility with assistive technologies

Responsive interface for all devices

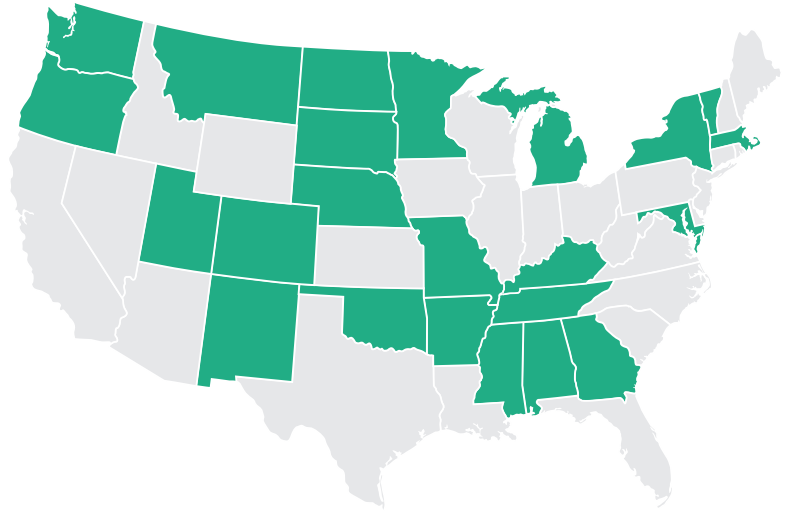

50%

**Decrease in
transaction times and
customer service calls**

OUR DRIVER & VEHICLE PARTNERS

Since 1998, national, state, and local government agencies worldwide have trusted FAST for lasting success in software modernization. Our **FastCore platform** enables agencies around the world to anticipate customer needs, empower users, and provide cutting-edge service for their communities.
