COLLECTION SERVICES

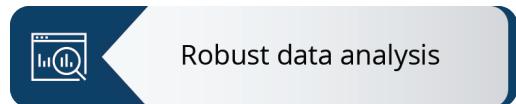

FAST COLLECTION SERVICES FOR THE MODERN GOVERNMENT AGENCY

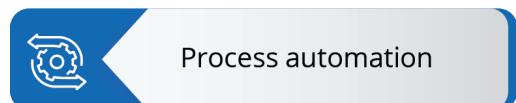

Most debtors would resolve their debts if given the chance. When conventional collection activities don't work, how can your agency identify cooperative debtors and help them pay what's owed?

Fast Collection Services (FCS) is a cloud-based solution that uses modern analytics and tools to optimize debt recovery and offer customer-centric self-service options for fair and equitable debt resolution.

The Best Action at the Right Time

Traditional collection methods operate on a linear path, which can cause debts to become stale and forgotten. FCS uses an integrated path that leverages data and analytics to make recommendations so agencies can resolve debt before it becomes uncollectable.

FCS automates the assignment and enforcement of the most effective collection actions, freeing up agency staff to focus on higher-value activities and customer service.

OUR IMPACT

For more than 25 years, Fast Enterprises (FAST) has transformed the way government agencies serve their communities. We provide secure software that delivers superior customer experiences, greater flexibility, and streamlined operations.

More than 100 governments worldwide use FAST solutions to administer programs for child support, unemployment insurance and paid leave, driver licensing and motor vehicle, and tax and revenue.
