FAST
IDENTITY VERIFICATION SERVICES

FAST IDENTITY VERIFICATION SERVICES
(FIVS) FOR GOVERNMENT

Government benefit fraud is the leading type of identity fraud, comprising 32% of all cases. State agencies play a critical balancing role, weighing the need for fair, uninterrupted services with necessary fraud prevention.

FIVS helps agencies strike that balance. Our advanced algorithms, data models, and analytics have enabled government agencies to proactively stop fraud, preserving billions of dollars and reducing staff workload.

A Collaborative Effort
FAST's dedicated teams work closely with each agency to customize data reports and tune rules/scoring for each individual client.

Pass/Fail Results
Agency identity submissions typically result in a simple pass/fail outcome for fraud detection.

Hands-on Visualization
Built-in visualization tools let agency staff take an active role in detecting fraud trends.

Cloud Optimized
Cloud-based identity verification works with any state government software, providing top-level data protection.
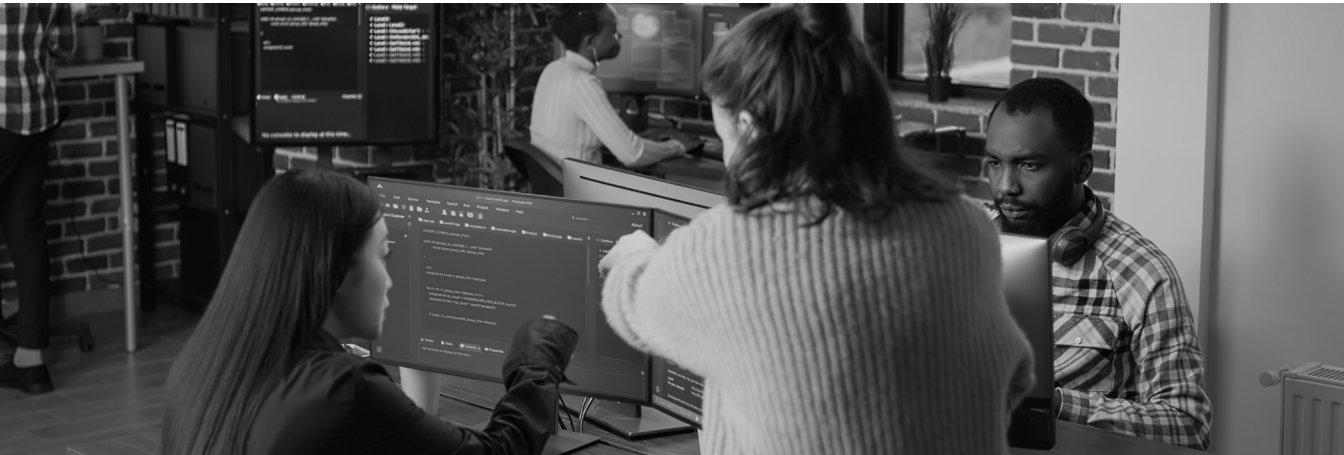

Workload Relief
If additional verification is required, FIVS provides self-service options that eliminate the need for staff intervention.

THE PROVEN **SOLUTION**

FIVS, currently in use by 20 government agencies, has:

ANALYZED

52M+
unique
identities

135M+
total
submissions

RESULTED IN

.003%
false positive
rate

98%
identity theft
capture rate

OUR **IMPACT**

For more than 25 years, Fast Enterprises (FAST) has transformed the way government agencies serve their communities. We provide secure software that delivers superior customer experiences, greater flexibility, and streamlined operations.

More than 100 governments worldwide use FAST solutions to administer programs for child support, unemployment insurance and paid leave, driver and vehicle service, and tax and revenue.
